

Spanish Final Project

Hello all, here are the directions for your Spanish Final Project:

On this project you must create a fictional character. It can be an animal, a person, a super hero, just to mention some examples. Then, describe your fictional character using the verbs to be (ser and estar) and the verb to have (tener) to express the characteristics of your fictional character. Use the verbs in Simple Present Tense, and first person in singular (Yo) as subject pronoun.

You need to use the first person in singular because you are going to perform your own fictional character. You must wear a custom or something to represent how your fictional character looks like. You don't have to buy anything, you can use something you already have at home, or make something with any material you have. Even, if you don't want to wear as your fictional character, you can make a draw.

Additionally, following the model I give you bellow, you have to read or say the main characteristics of your fictional character as part of your performance.

Example: My fictional character is a frog (un sapo) who can sing very loud.

Hola, mi nombre es Sapín Sapón, tengo 9 años. Soy un sapo muy inteligente, divertido y guapo. Mi pelo es marrón, mi piel es verde y mis ojos son azules. Mi cumpleaños es el 18 de Septiembre. Soy un cantante famoso. Soy famoso porque soy muy ruidoso. Mis canciones son alegres y divertidas. Aunque casi siempre estoy feliz, a veces estoy enojado porque mis amigos dicen que soy muy ruidoso.

Your Project is due June 1st. We are going to present our fictional character in our zoom class.

If you have any questions, please email me.

Have fun.

Mrs. Lorenzo.
